*I had the pleasure of having Sky as one of my students in the UCLA Full Stack Web Development Bootcamp. Always inquisitive, Sky had a great knack for problem solving as well as learning new skills on the fly quite rapidly. Sky would be a great addition to any team or business and has very solid developer skills. Sky also worked very well in group settings and often helped other team members figure out their problems. With a wide variety of skills and a talent for problem solving I recommend Aakash/Sky as a fantastic developer any company would be lucky to have.*
